

Choice Antenna Location

Milwaukee, WI

The antenna site at the U.S. Bank Center accommodates a variety of two-way and microwave communications equipment. A common area for land mobile radio equipment and other telecommunications systems has been allocated on the 41st floor. The roof and the observation deck are available for antenna apertures. Standby electrical power facilities for transmitter plants can be appropriately located within the building.

Latitude: 43° 02' 18"
